Curiosity is certainly the best incentive for travel, and especially for a trip to India. Whether you class yourself as a tourist or traveller, anyone visiting India should approach his tour by borrowing a little from Indian Philosophy, although perhaps patience is a better word. India is a special place, its people have a special conception of life that is totally different from anything else in the world. It is this difference that compels people to visit this country, a curiosity to try and understand what is this subcontinent, to explore a country that is two-thirds the size of Europe excluding Russia.
